Instructors: Samantha Dewerff, Kevin Knapik, Matthew Pauly & Prof. Joshua Weitz

PLU Credits: 20+ hours of contact time and credit for 2 PLU

Website: <http://publish.illinois.edu/projectmicrobe>

Project MICROBE provides middle school and high school teachers relevant training in an innovative, microbial-focused curriculum. The curriculum materials include six core lessons. In these lessons, students engage in a series of inquiry-based activities to learn about microbes from the three domains of life (Eukaryotes, Bacteria, and Archaea).

Only 30 spots available!

\$50 early registration fee (before 5/15/17)
